PROFESSIONAL SUMMARY

Final-year Business Analytics student with two-plus years in operational reporting, process mapping and data structuring. Skilled with Excel, SQL, Power BI and Agile tools to map workflows and turn operational reality into requirements a technical team can build from. A quick learner, eager to bridge operations and technology as a Graduate Business Analyst intern on a live digital transformation project.

KEY SKILLS

Reporting & Analytics: Excel (*XLOOKUP, PivotTables*), SQLs (*BigQuery*), KPI and trend analysis, performance dashboards (*PowerBI, Looker/Data Studio*)

Process & Operations: Process mapping, workflow documentation, data cleansing & governance, requirements gathering, gap analysis, predictive analysis

Stakeholders & Communication: Stakeholder management, cross-functional collaboration, tech-partner liaison, insight communication

Systems & Delivery: Agile delivery & user story mapping (Jira, Miro, LucidChart), CRM & pipeline systems (Salesforce, HubSpot), wireframing (Figma), Python; fast learner of new enterprise/ERP systems

EMPLOYMENT

Sidekick (YC S26) - AI Automation Start-up — June 2026 - Current
Business Development Analyst Intern — Melbourne

- Mapped shop-floor workflows and SOP structures across manufacturing, auto dealership and retail prospects through discovery calls, structuring findings into a requirements framework that informed which product integrations the founding team prioritised next.
- Segmented and analysed **30+** prospect profiles by pain-point category (SOP access, work-order routing, digital-skill gaps), turning qualitative discovery conversations into a structured, quantified pipeline, contributing to a **3x** increase in qualified pipeline within target verticals.

Codrops, - Frontend Dev & UX/UI Publication — Mar 2024 - Current
Partnership Associate — Remote

- Built and maintained a structured CRM system to track a **50+** sponsor pipeline end-to-end for a publication reaching **2M+** monthly web design and development readers internationally, designing the data fields and stages used to monitor lead status, response rates and conversion at every step.
- Managed multiple parallel workstreams (outreach, approvals, follow-ups) under tight deadlines, documenting process at each stage to keep the pipeline auditable, closing **5** deals to date.

SW Education Pty Ltd, - Education & Career Services — Aug 2025 - Nov 2025
Digital Analyst Intern — Melbourne

- Cleaned and standardised **10,000+** client records in Excel, improving data quality and making operational reporting consistent and reliable across the business.
- Build interactive **PowerBI dashboards** for executives to visualise client engagement, service-category performance and conversion pathways, helping the team identify

The Muse Crochet, - Small Business — Nov 2024 - Mar 2025
Sales & Customer Experience Associate — Melbourne

- Analysed daily order and engagement data across POS system (Square), Shopify and Instagram to spot which products and colourways were moving fastest, using the pattern to guide weekly restocking and merchandise decisions, lifting repeat-customer purchases by an estimated **18%** over the 3-month period.

PROJECT EXPERIENCE

Business Intelligence Solution - Altano Bank *(Power BI, Excel, Power Query)* — **2025**

- ***Problem:*** Three fragmented, error-ridden source datasets (**93,000+** transactions, **1,033** customers, **3,800+** cards) left the bank without a reliable base for evidence-based decisions ahead of a market expansion.
- ***Solution:*** Rebuilt the datasets into a single governed, analysis-ready model using the ISO/IEC 25012 data quality dimensions and a 3-stage cleansing methodology (Excel, Power Query, DAX), documenting the logic behind every fix in a structured, auditable register.
- ***Impact:*** Delivered **3** persona-specific Power BI dashboards (Executive Board, Operations Manager, Frontline Customer Service) from one model and quantified a **$2.76M** dormant-card revenue opportunity including a shift from credit-score-led to income-and-DTI-led credit strategy ahead of the bank's expansion.

EDUCATION

Deakin University — 2024 – 2026 (Expected)
Bachelor of Business Analytics

- Grade: 82/100 (High Distinction) **-** Recipient of Deakin International Student Merit Scholarship.
- Activities: B&L Peer Mentor | DUSA Crew Member | Finance Officer, MOVSA
